

VILLA LANDS END

Description

Description

The architecture and interior design of Villa Lands End evoke a modern, contemporary style without compromising luxury. The exterior’s white colors are complemented by massive glass doors and windows. The interior is composed of soft, comforting tones of white and beige that blend with beautifully crafted furnishings made from quality wood and glass.

No matter which of Villa Lands End’s seven bedrooms you choose to sleep in, you will not be lacking in luxury. Each of the seven bedrooms in this vacation home, which sleeps up to 16 guests, has its own ensuite bathroom. To ensure that you can enjoy the views all day long, six of the bedrooms come with their own private terrace as well.

The spacious outdoor deck area comes with just about every amenity imaginable. A pool and jacuzzi are right on the edge of the property, giving you a breathtaking ocean view every time you go for a swim. There are also plenty of lounge chairs and a large sofa, as well as a fire pit, barbeque, and outdoor fireplace.

If you prefer staying indoors, there are many things to do at Villa Lands End with your family and friends. From watching movies on the big flatscreen television to spending all night playing games on the ping pong and pool tables, there is no shortage of things to do inside the home. There is even a fitness room with both free weights and high-end machines for those who don’t want to miss a workout while on vacation!
